

## **BILL “ARMY” ARMSTRONG TRAINING GRANT FOR CURRENT FIREFIGHTERS**

This fund was established in 2001 by the Licking County Firefighters Association in memory of Bill “Army” Armstrong, who was a very active part of fire service in Licking County. William (Bill) Armstrong, who served on the Newark Fire Department for 30 years and was a founding member of the Licking County Hazardous Materials Team, died in 1999. Bill was the President of the Licking County Firefighters Association for several years, headed up the Haz-Mat team, and also taught.

This fund assists current members of the Licking County Firefighters Association who have been approved by their chief or training officer to complete a fire science or Haz-Mat training course that does not otherwise qualify for state reimbursement. These training courses must be provided by an accredited institution or licensed training provider.

Training grants are awarded on a first-come, first-served basis as applications are approved within each calendar year and as funds are available.

### **INSTRUCTIONS**

**All sections of the application must be complete. There are two ways to complete the application:**

- (1) Electronically complete the application, print and sign the application, and obtain the signature of your chief or training officer.
- (2) Print the application, hand write responses (must be legible) and sign the application, and obtain the signature of your chief or training officer.

**Please submit the registration and payment information for your requested training course with the application.**
